## **CASH MANAGEMENT PLAN**

### **I. PURPOSE**

This Cash Management Plan (the “Plan”) is prepared pursuant to the provisions of N.J.S.A. 40A:5-14 in order to set forth the basis for the deposits (“Deposits”) and investment (“Permitted Investments”) of certain public funds of the Township of Neptune (“Township”) pending the use of such funds for the intended purposes. The Plan is intended to assure that all public funds identified herein are deposited in interest bearing Deposits or otherwise invested in Permitted Investments hereinafter referred to. The intent of the Plan is to provide that the decision made with regard to the Deposits and the Permitted Investments will be done to insure the safety, the liquidity (regarding its availability for the intended purposes), and the maximum investment return within such limits. The Plan is intended to insure that any Deposit or Permitted Investment matures within the time period that approximated the prospective need for the funds deposited or invested so that there is not a risk to the market value of such Deposits or Permitted Investments.

The Township of Neptune Cash Management Plan is intended to act as a summary of cash management activities to be undertaken by the various municipal departments which handle cash in order to ensure maximum cash availability and maximum investment yield on idle Township cash.

The Township wishes to manage cash efficiently from the time revenue is earned until the time an expenditure payment clears the bank. The overriding goals of the cash management system are to maximize availability and maximize yield. The first goal is met by decreasing time lags from the earning of revenue until it is converted to cash and by timing expenditures to be made on their due dates, not before or after. The second goal is achieved by maximizing investment yield on cash between its collection and disbursement.

The administrative staff of the Township of Neptune exists to provide services to its citizens for which it must collect tax and fee revenue. Effective cash management will operate within the constraints of the purpose of government. Cash should not be maximized at the expense of paying vendors late or alienating taxpayers with intimidating collection procedures. Similarly, yield should not be maximized at the expense of other goals. Where conflicts exist between the two primary goals of the cash management policy, the Township will put a higher priority on cash availability than yield as the cash management system shall ensure that cash is available to support municipal operations.

The Township of Neptune shall comply with all laws and regulations concerning municipal cash management. All municipal funds will be deposited in a manner by which they will be protected under Governmental Unit Deposit Protection Act (GUDPA) regulations. The Township will comply with directives from the New Jersey Department of Community Affairs,

Division of Local Government Services and the Local Finance Board concerning cash management.

The Township will work to increase non-tax revenues when they are not needed for current obligations and keep idle funds in interest bearing accounts at all times. The Township Finance Department will monitor and project cash flows and plan expenditures accordingly as well as maintaining familiarity with the short-term investment market.

## **II. IDENTIFICATION OF FUNDS AND ACCOUNTS TO BE COVERED BY THE PLAN.**

The Plan is intended to cover the deposit and/or investment of the following funds and accounts of the Township as well as any other similar accounts opened throughout the year;

Custodial Credit Risk: All of the Township's investments are insured or registered in the Township's name or held by an entity as its agent in the Township's name. The Township does not have a separate policy for custodial credit risk for its investments other than to adhere to the requirements of statute and to deposit all of its funds in banks covered by FDIC and GUDPA.

Concentration of Credit Risk: The Township places no limit on the amount the Township may invest in any one issuer so long as the investment is compliant with this plan and State regulation.

## **FINANCIAL MANAGEMENT**

### **I. PROTECTION OF TOWNSHIP ASSETS**

Cash management is a form of risk management in that any time the Township earns revenue, makes an investment, or commits to an expenditure, it incurs a certain amount of risk. The Chief Financial Officer must recognize and minimize the Township's exposure to five distinct types of risk;

**Default risk** - Default risk applies mainly to investments, but could also apply to basic checking accounts. Default risk is the risk that some or all of the principal amount of an investment or account will not be available due to default by the issuer, securities dealer or broker, bank or other financial institution. Default risk is best avoided by carefully screening investment dealers and banks for potential default problems and by limiting investments to those instruments which are least likely to default. Should a default occur, the Township will take all recourse actions available through deposit insurance, regulatory and legal systems.

**Market Risk** - Market risk is the risk that, while the Township holds an investment instrument, changes in the financial markets reduce the value of the investment. In extreme cases, the market value may fall below the principal amount invested by the Township. The Township can protect against market risk by investing in instruments which are guaranteed to mature at an amount equal to or greater than the principal investment. As such, the Township shall avoid market risk by investing in approved re-purchase agreements, money market funds, savings accounts, Certificates of Deposit and other similar products as approved by the New Jersey Department of Community Affairs – Division of Local Government Services as described in Article VI of this document.

**Reputational Risk** - An offshoot of the other forms of risk, reputational risk is the risk that the Township will lose stature by making a cash management mistake. Few events are more damaging to a government's prestige and potential than a well-publicized investment loss. While the most common cause is loss of principal due to default, the Township's reputation may also be damaged by overzealous collection processes or by late payment of expenditures. Reputational risk may cause long-term harm to the government as citizens question the management capability of both elected officials and the professional staff. A poor reputation may also discourage vendors and potential new businesses and residents from working with or locating in the Township.

**Safekeeping Risk** - The rise of electronic funds transfers and creative investment instruments has spawned a new process of investing in which the cash manager may never see the instrument in which they are investing. Many banks, brokers and dealers prefer to

issue a safekeeping certificate or use another simple method to evidence receipt of the principal. The most common use of safekeeping certificates is in repurchase agreements, in which the Township purchases certain securities and the broker agrees to repurchase them with interest at a later date. The broker often issues a certificate that the securities are on hand and being held against the investment. The Township may protect itself against the external safekeeping risk by demanding collateral securities be physically delivered to the Township as a condition of making the investment. This practice may reduce yields, but provides an important form of protection. The internal safekeeping risks of lost monies can be reduced by practicing sound internal controls.

Collection Risk - There can be a significant difference between revenue earned and revenue collected. Nonpayment of taxes, fees, and fines poses a risk that resources budgeted and treated in the accounting system as if they were received may never actually appear. There is also a strong "word of mouth" factor. If individuals seem to "get away" without paying large amounts in fines, fees or taxes, many others will try this technique. The Township must protect itself against collection risk by utilizing aggressive collection procedures.

## **II. LIQUIDITY / RESERVES**

Idle cash is only idle and available to invest until it is needed to pay employees or invoices. An important objective of an effective cash management plan is to time investments so that they mature at the same time they are needed to meet these obligations. If they mature too early, the Township will lose interest earnings, if they mature too late, the Township risks a potential problem of liquidity. The Township must strive to guarantee liquidity by carefully forecasting expenditures; determining if each upcoming expenditure obligation is "covered" by cash on hand, incoming revenue, or maturing investments; and timing investments to meet the next "uncovered" obligation. A margin for unexpected expenditures is allowable and expected.

The Township strives to maintain liquidity through appropriate reserve balances. The Township target for reserve ratios pursuant to the policy shall be a minimum of 2% of current year appropriations (not including the reserve for uncollected) after utilization of the prior year reserve balance. In addition, the Township will monitor and adjust spending and revenue sources throughout the budget year to meet an end of year reserve balance of 10% of the prior year budget (not including the reserve for uncollected).

## **III. FINANCIAL REPORTS**

The Chief Financial Officer shall produce or have produced the following expenditure and financial condition reports and make them available to the elected officials of the Township;

Budget Expenditure Reports – available monthly in Finance Office  
Budget Revenue Reports – available monthly in Finance Officer

The Township shall utilize Requisitions, Purchase Orders and Voucher forms with signatures required from Department Heads and Township Committee members. The Township shall encumber funds for contracts and purchase orders once they are approved. The Township shall pay all invoices in accordance with terms of same. Payments should not to be made later nor earlier than required by said terms. The Township shall utilize a centralized purchasing system and maintain a comprehensive fixed assets inventory.

The Tax Collector will be responsible for preparing daily cash receipt reports and submitting same to the Asst. Chief Financial Officer for cash forecasting and tracking information. The Tax Collector will maintain a monthly analysis of taxes receivable and reports detailing all adjustments, tax sale information and assignments.

#### **IV. DEBT MANAGEMENT**

The Chief Financial Officer shall maintain an analysis of all debt authorized but not issued, recommend cancellations of authorization balances no longer needed, recommend re-appropriation of authorization balances no longer needed for their intended use, maintain an analysis of grants receivable for capital improvement projects, handle all facets of bond and bond anticipation note issuance, ensure that the Township remains in compliance with arbitrage regulations and that an annual analysis and report are compiled concerning arbitrage.

The CFO shall prepare a six-year Capital Improvement Plan as part of the annual budget process which will be considered for approval by the Governing Body. Once approved, this plan shall be utilized as a basis for the authorization of new debt. Other factors to be

considered in regard to new debt issuance will include, grant funding, other funding sources, current and future budget impact, short-term and long-term bond markets, and project prioritization.

The Township strives to maintain a stable but aggressive debt repayment schedule and debt ratio as compared to equalized valuation. The target debt ratio has been established as approximately 20% of allowable debt capacity pursuant to the Local Bond Law. This ratio may be exceeded by action of the governing body or by policy change.

## **V. AUDIT AND REVIEW**

All employees will work with the Township auditing firm to ensure a thorough and accurate audit review. The Chief Financial Officer shall arrange an Audit Exit Conference with Township Auditor and prepare a Corrective Action Plan in response to any audit comments or recommendations. The Corrective Action Plan will be submitted to the Township Committee for approval and submitted to the Division of Local Government Services in accordance with regulations concerning same.

This policy will not limit the Township Committee from authorizing payments at any other Township Committee meeting, including workshop meetings properly advertised for such action nor limit the Chief Financial Officer's ability to issue a disbursement between meetings to be confirmed by the Township Committee at a later date. Examples of payments that are clearly authorized to occur prior to authorization on a meeting include (but are not limited to):
    - 1. Utilities
    - 2. Payroll

  - B. In order to comply with this policy, all department heads must ensure that completely executed vouchers with invoices are submitted to the Purchasing Department by 9:00 AM of the Wednesday preceding the meeting night on which they are intended to be paid. Department heads and the Purchasing Department should review all payments to ensure that they are paid as late as possible but within the terms set forth by the purchase order.

13. Cash flow shall be estimated for a twelve month period, as detailed in the budget document, with more formal and accurate analyses provided for lesser periods as described herein.
  - A. Estimation of revenues shall include anticipated receipts from: Municipal Revenues, Federal Revenue, State Revenues, and Bond Issues.

16. - F. All funds, including change funds, petty cash funds, daily receipts, and any other funds maintained by a department must be maintained in a locked container, proofed daily, and securely stowed at all times.
- G. Each department head must regularly review their office procedures to ensure that adequate internal controls are in place. The purpose of these policies is to ensure compliance with general law, operate using best practices, and ensure the safekeeping of taxpayer funds. This includes, but is not limited to; compliance with the Local Budget Law, the Local Fiscal Affairs Law, State and Federal Grant requirements and the Local Public Contracts Law. Legal compliance can only be maintained with the diligent application of these financial controls.

2. Cash receipt controls.

- A. Every department receiving cash receipts must maintain a cash book or cash log. At a minimum, the cash book must contain the following information (this may be maintained on a computer system that tracks changes):
  - (i) Date of receipt.
  - (ii) Amount of receipt.
  - (iii) Name of payee.

- (iv) Purpose for payment.
  - (v) Other pertinent information.
- B. The person making payment must be given a receipt by the department.
- C. Cash verification. Each department head or supervisor must ensure the safety of cash deposits. The Township of Neptune has a "banking" type arrangement in the Tax Collector's Office which assists each department in making fast deposits. Each Township office that collects cash must ensure that it is deposited quickly with the Tax Collector and no later than 48 hours (per N.J.S.A. 40A:5) after receipt. The department head must examine the receipt book at least monthly to ensure its veracity.
- D. Purchasing. Every department must follow the Township of Neptune Purchasing Guidelines / Manual. Please ensure that original invoices, receipts, and all necessary descriptions and certifications are attached to each purchase order and voucher. This is an essential control and if not followed will result in nonpayment by the Finance Department. Also, please ensure that the requisition system resulting in a purchase order is followed.
- E. Budget controls. Every department head may not exceed their budget allocation for salaries and wages and other expenses (operating expenses). No emergencies are allowed in operating budgets (reference N.J.S.A. 40A:4). If an officer or employee of the Township over expends a budget (S&W or OE), state law is broken and the official is subject to possible prosecution. Do not spend money you do not have without permission from the Administrator and the Chief Financial Officer. Each department head must review his or her budget monthly and if there are any questions, contact the Finance Department.
- F. Equipment. All equipment of values must be listed in the Township Fixed Assets Inventory maintained by the Finance Department. The Finance Department is to be notified of all reassignments of assets, the sale of assets, and the acquisition of assets if acquired outside of our purchase process. Department Heads should regularly assist the Finance Department in verifying their section of the Fixed Assets Inventory.

- G. Employee information. An accurate log of sick, vacation, holiday time, etc. must be maintained for each employee. The Township utilizes a computerized system for time management. All Department Heads must assure that all employees are recording their time in this system.
- H. Overtime approval. The approval of overtime must be made directly by the department head. If a supervisor is making the day-to-day decision of overtime approval, there must be adequate justification of the expense. Please remember that overtime is subject to the aforementioned budget controls.
- I. Payroll.
  - (i) Every payroll change must be accompanied by a personnel action form. This form must be signed by the department head, CFO, and Township Administrator. The finance department will verify all payroll information. In no case will an employee be compensated greater than allowed by law. These internal controls are designed to protect the Township of Neptune from fraud, misappropriation of assets, etc. Also, statutory compliance is maintained by continually reviewing these controls.
  - (ii) All payroll submission must be made in the format provided by the Finance Department and in accordance with the calendar distributed by the Finance Department.
- J. Wire Payments. Wire payments must be initiated by one authorized person and approved by another. Any wires over \$1 million need to be approved by 2 authorized employees. The employees authorized are in the finance department, and have been assigned a token authentication through the bank. In addition, a fourth employee that does not have a role in initiating nor approving wire payments will be provided with documentation regarding every wire payment and will reconcile the wire documentation with the actual wire payment activity on the bank account reports.

At introduction, the governing body shall fix the time and place for a public hearing on the budget and must advertise the time and place at least ten days prior to the hearing in a newspaper published and circulated in the municipality. The public hearing must not be held less than twenty-eight days after the date the budget was introduced. After the hearing has been held, the governing body may, by majority vote, adopt the budget or may amend the budget in accordance with N.J.S.A. 40A:4-9.

An extension of the statutory dates for introduction, approval and adoption of the municipal budget may be granted by the Director of the Division of Local Government Services, with

the permission of the Local Finance Board. Budgets are adopted on the same basis of accounting utilized for the preparation of the Township's financial statements.

Cash, Cash Equivalents and Investments - New Jersey municipal units are required by N.J.S.A. 40A:5-14 to deposit public funds in a bank or trust company having its place of business in the State of New Jersey and organized under the laws of the United States or of the State of New Jersey or the New Jersey Cash Management Fund. N.J.S.A. 40A:5-15.1 provides a list of securities which may be purchased by New Jersey municipal units.

The Township of Neptune is required to deposit funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-42 requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

Public funds are defined as the funds of any government unit. Public depositories include banks (both state and national banks), savings and loan institutions and savings banks, the deposits of which are federally insured. All public depositories pledge collateral, having a market value of five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories in the collateral pool, is available to pay the full amount of their deposits to the governmental units.

The Township considers highly liquid investments with an original maturity of three months or less at the time of purchase to be cash equivalents.

Property Taxes and Other Revenues - property taxes and other revenues are recognized on a cash basis. Receivables for property taxes and other items that are susceptible to accrual are recorded with offsetting reserves on the balance sheet of the Township's Current Fund. GAAP requires such revenue to be recognized in the accounting period when they become susceptible to accrual, reduced by an allowance for doubtful accounts. Property taxes are payable quarterly on the first day of February, May, August and November.

Grant Revenues and Expenditures - Federal and State grants, entitlement or shared revenues received for purposes normally financed through the Current Fund are recognized when anticipated in the Township's budget. GAAP requires such revenues to be recognized in the accounting period when they are earned and the expenditures to be recognized when the liability is incurred.

Expenditures - unexpended or uncommitted appropriations, at December 31, are reported as expenditures through the establishment of appropriation reserves unless cancelled by the governing body. GAAP requires expenditures to be recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt, which should be recognized when due.

Encumbrances - contractual orders at December 31 are reported as expenditures through the establishment of a reserve for encumbrances. Encumbrances do not constitute expenditures under GAAP.

Appropriation Reserves - are available, until lapsed at the close of the succeeding year, to meet specific claims, commitments, or contracts incurred during the preceding year. Lapsed appropriation reserves are recorded as additions to income. Appropriation reserves do not exist under GAAP.

Deferred Charges - the regulatory basis of accounting utilized by the Township requires that certain expenditures be deferred, and raised as items of appropriation in budgets of succeeding years. These deferred charges include the two general categories, overexpenditures and emergency appropriations. Overexpenditures occur when expenditures recorded as "paid or charged" exceed available appropriation balances. Emergency appropriations occur when, subsequent to the adoption of a balanced budget, the governing body authorizes the establishment of additional appropriations based on unforeseen circumstances or for other special purposes as defined by statute. Overexpenditures and emergency appropriations are deducted from total expenditures in the calculation of operating results and are established as assets for Deferred Charges on the respective balance sheet. GAAP does not permit the deferral of overexpenditures to succeeding budgets. In addition, GAAP does not recognize expenditures based on the authorization of an appropriation. Instead, the authorization of special purpose expenditures, such as the preparation of tax maps or revaluation of assessable real property, would represent the designation of fund balance.

Compensated Absences - expenditures relating to obligations for unused vested accumulated vacation and sick pay are not recorded until paid. GAAP requires that the amount that would normally be liquidated with expendable available financial resources be recorded as an expenditure in the operating funds and the remaining obligations be recorded as a long-term obligation.

Property Acquired for Taxes - is recorded in the Current Fund at the assessed valuation when such property was acquired and fully reserved. GAAP requires such property to be recorded in the general fixed assets account group at its market value.

Mortgage Receivable - The Township has entered into a mortgage agreement in the amount of \$400,000.00. The Township sold property to a developer to construct affordable housing units as part of the Schoolhouse Square Project ("the Project"). As part of the mortgage agreement when a unit is sold, the purchaser will sign a \$20,000.00 secondary mortgage payable to the Township under the Neptune Housing Incentive Fund Program. This is a no interest mortgage and is payable in a single lump sum payment upon the first to occur of the following events:

- a) The sale of the property; or
- b) The refinancing of the purchaser's first mortgage
- c) The repayment in full of the note secured by the first mortgage

The mortgage receivable is fully reserved and revenue will only be recognized when and if units are sold and the above conditions are met.

Interfunds - Interfund receivables in the Current Fund are recorded with offsetting reserves which are created by charges to operations. Income is recognized in the year the receivables are liquidated. Interfund receivables in the other funds are not offset by reserves. GAAP does not require the establishment of an offsetting reserve.

Inventories of Supplies - the costs of inventories of supplies for all funds are recorded as expenditures at the time individual items are purchased. The inventories have offsetting reserve amounts.

Reserve for Sale of Municipal Assets - cash proceeds from the sale of Township owned property may be reserved until utilized as an item of anticipated revenue in a subsequent year budget. Year end balances of such proceeds would be reported as a cash liability in the Current Fund. GAAP requires that revenue be recognized in the accounting period that the terms of sales contracts become legally enforceable.

Capital Leases - are not recorded at the lesser of the fair value of the leased property or the present value of the minimum lease payments. GAAP requires an amount equal to the lesser of the fair value of the leased property or the present value of the minimum lease payments to be recorded in General Fixed Assets Account Group and the long-term obligation be recorded as part of a General Long-Term Debt Account Group.

General Fixed Assets - property and equipment purchased by the Current and the General Capital Funds are recorded as expenditures at the time of purchase and are not capitalized.

Accounting for Governmental Fixed Assets, as promulgated by Technical Accounting Directive No. 2 as issued by the Division of Local Government

Services, differs in certain respects from generally accepted accounting principles. The following is a brief description of the provisions of the Directive.

Fixed assets used in governmental operations (general fixed assets) are accounted for in the General Fixed Assets Account Group. Public domain (“infrastructure”) general fixed assets consisting of certain improvements other than buildings, such as roads, bridges, curbs and gutters, streets and sidewalks and drainage systems are not capitalized.

All fixed assets are valued at historical cost or estimated historical cost if actual historical cost is not available except for land which is valued at estimated market value.

No depreciation on general fixed assets is recorded in the financial statements.

Fixed assets acquired through grants-in-aid or contributed capital are not accounted for separately.

Fixed Assets - Utility - accounting for utility fund “fixed capital” remains unchanged under the Requirements of Technical Accounting Directive No. 85-2.

Property and equipment purchased by the Sewer and Marina Utility Funds are recorded in the capital account at cost and are adjusted for disposition and abandonments. The amount reported for reserve for amortization of fixed capital acquired on the balance sheet of the Sewer and Marina Capital Funds represents the aggregate charges (capital outlay and debt service) to the operating budget for the costs of acquisitions of property and equipment and proceeds from grants-in-aid. The utilities do not record depreciation of property and equipment. GAAP does not require the establishment of a reserve for amortization of fixed capital, whereas it does require the recognition of depreciation of property and equipment by enterprise funds.

B. Basis of Accounting (continued)

Comparative Data - comparative total data for the various funds for the prior year has been presented in the accompanying Balance Sheets and Statements of Operations and Changes in Fund Balance in order to provide an understanding of changes in the Township's financial position. However, Comparative Statements of Revenues and Statements of Expenditures have not been presented since this inclusion would make the statements unduly complex and difficult to read.

C. Basic Financial Statements

The GASB Codification also defines the financial statements of a governmental unit to be presented in general purpose financial statements in accordance with GAAP. The Township presents the financial statements listed in the table of contents which are required by the Division and which differ from the financial statements required by GAAP.

In addition, the Division requires the financial statements listed in the table of contents to be referenced to the supplementary schedules. This practice differs from GAAP.

Township employees involved in the purchasing process should be familiar with, and adhere to, the guidelines set forth in this manual.

The cooperation of all employees is essential if the Township is to obtain the maximum value for each tax and utility dollar spent. While this manual does not answer all questions related to purchasing, it does provide the foundation for a sound centralized purchasing system.

The material in the manual is subject to revision to meet the often rapidly changing developments encountered in the field of purchasing and in the economy. Within these limits it is hoped that this manual will prove beneficial to the Township and to all employees.

This manual is effective immediately upon issuance and receipt, and supercedes all previous purchasing instructions or directives.

## **PURPOSE**

The purpose of this purchasing manual is to describe the purchasing system of the Township of Neptune. The primary focus of this manual is on the purchase of goods and services. A section of the manual is devoted to Statutory and Mandated services which do not require requisitions. The rules under which the Township's purchasing system functions are governed by the Local Public Contracts Law of the State. In addition, certain Township ordinances govern certain aspects of the purchasing system. This manual is intended to serve as a general guide to the Township's purchasing system. It is not the intent of this manual to address every question. Any questions which might arise, and are not covered by this manual may be directed to the Purchasing Agent.

A key rule to follow is that all purchases must be approved prior to the purchase being made. The process begins with the submission of a requisition form. Purchases made without following the procedures contained in this manual are the responsibility of the employee making the purchase. The Township has no obligation to make payment for any purchases made outside of these procedures. An employee who fails to comply with these purchasing requirements shall be referred to the Administrator for such action as may be appropriate. The Township's purchasing procedure is summarized in Appendix B of this manual.

## **PURCHASING AGENT'S ROLE**

The Township Purchasing Agent administers the purchasing system under the authority granted through 40A:11-9 and local ordinances and policies. All processing of requisitions, purchase orders and vouchers, as well as related record keeping is performed by the Purchasing Office within the Finance Department. The Purchasing Agent - - is the only municipal employee whose duties involve direct and active contact with vendors. This does not, in any way, limit the authority of the Township Administrator, the Chief Financial Officer and the Township Engineer to maintain direct and active contact with municipal vendors. Departments are requested to limit their relationship with vendors unless contact is necessary to aid the Purchasing Agent in obtaining specific information.

The Purchasing Agent has the obligation to coordinate vendor and using department requirements, in such a manner as to assure fairness to the vendor and satisfaction of the using department. The Purchasing Agent may, at his discretion, substitute other goods of equal quality for the items requested when it is in the best interest of

the Township to do so.

Another function of the Purchasing Agent shall be in administering a centralized purchasing system which exercises control on purchasing, independent of, but in cooperation with the various departments. The Purchasing Agent will, through the administration of such a system, control spending within the budget to avoid over expenditures and provide greater financial control.

## **ELECTRONIC REQUISITIONING**

The Township has implemented an electronic requisitioning program that allows municipal departments to submit and track the status of purchase requisitions via the Township's Computer Information System.

Under this program, each department is equipped with computer equipment, communications connections and remote requisitioning software to ensure connectivity with the requisition system. This equipment will be maintained, as needed, by the Township Municipal Information Specialist.

Each department is responsible for entering and transmitting their requisitions to the Finance office through the use of this mechanism as opposed to submitting paper requisitions.

Once approved, the Purchasing Agent will utilize the requisition in the preparation of the purchase order. In addition, the Purchasing Agent will obtain price quotations to insure that the lowest possible price is obtained. The Purchasing Agent will review all purchases to insure compliance with State Law.

Proper planning and preparation of requisitions in ordering goods and services are very useful planning tools. This can assist all Department heads in the overall administration of their budgets.

Requisitions which are disapproved will be returned to the department which originated the request.

Support responsibilities:

Technical or access problems should be directed to the MIS.

Procedural or Operational questions should be directed to the Finance Office.

Operating Guidelines for Electronic Requisitioning are attached to this policy.

## **PURCHASE ORDERS**

The purchase order is a three-part numbered form which fulfills many different functions. The top blue/white copy serves as the original and voucher copies. The yellow copy is for the vendor and the blue is the Purchasing copy. A general rule in purchasing is not to buy anything without an authorized purchase order and/or purchase order number.

A purchase order is a vendor's authority to sell a particular material or service to the Township. Without this authority, the Township has no obligation to accept or pay for any materials or services rendered. If this situation occurs, the obligation to pay would be on the employee who placed the order. The purchase order contains important information regarding payment procedures for the vendor and is the document used by the vendor to submit his/her claim for payment.

The Township's Purchasing Agent prepares all purchase orders from approved requisitions submitted by the various departments. It should be noted that it is the responsibility of the department to make sure that items requested are the exact items and quality needed for the purpose intended. Once a purchase order is prepared it shall be immediately encumbered before it is sent to the vendor. The blue and yellow copies are forwarded to the vendor via USPS or email to place the order. The Department can view the entire approval process of each requisition on the Remote Requisition system and see when the purchase order is approved and mailed.

The voucher contains a certification which must be signed by the vendor. Once the order is filled the vendor retains the yellow copy and returns the blue/white copy along with the invoice to the Purchasing Agent. The Purchase Order/Voucher must then be signed by an authorized employee or Department Head certifying receipt of the materials or services.

After the PO/Voucher is signed by the department personnel, it is sent back to the Purchasing Agent. Upon receipt, the Purchasing Office will post the voucher to be submitted for payment. The Finance Department compiles a bill list from the posted vouchers which is submitted on a resolution for approval of the Township Committee. After the Committee approves the Bill List, the checks can be released to the vendors. All pertinent information such as check number and date paid is entered on each voucher and kept on file in the Finance Department as the - record of all purchases township wide. An outline of the Township's Purchasing Procedure is contained in Appendix B of this manual.

## **SIGNATURES**

There are four signatures on the purchase order all of which are extremely important and required to complete the purchasing process. The first signature required certifies that sufficient funds are available in the budget to pay for the purchase. The vendor's signature on the voucher is indication that services have been rendered and the bill is correct. This is called the Claimant's Certification and Declaration. Next is the Departmental Certification which is proof that the materials and/or services have been received as specified on the invoice. Finally, the Committee Chairperson's signature indicates that payment has been examined and approved by Committee vote.

A list of the authorized signatures for each department is included in this manual as Appendix F. This list indicates the authorized signatures which are to appear on vouchers and requisitions. As a general rule, all departments should forward all paperwork received from a vendor to the Purchasing Agent.

## **ESTIMATES**

There are occasions when the total price for services will not be known until the work has been completed. In order to accommodate these situations, a procedure for dealing with estimates has been developed.

When a situation as described above develops, a requisition should be prepared and processed as normal. The requisition should include the estimated price for the work. Once the purchase order is prepared and processed, the department will be supplied with the purchase order number. This number shall be given to the vendor as his authorization to complete the work. Once the work is completed, the total price and invoices shall be given to the Purchasing Agent. This information will be used to complete the purchase order. When the purchase order is completed, it will be sent to the vendor as a confirmation purchase order.

## **DRAWS/BLANKET Purchase Orders**

In certain circumstances, when a vendor is to be paid on a regular basis or several purchases will be made over a period of time, one purchase order is issued as a draw. Under this system a single purchase order is issued to the vendor. When

purchases are made, the Township will prepare a blank voucher to be submitted for payment against the previously issued purchase order.

In the event that the amount exceeds the original purchase order, the excess amount must be approved. Requests for an increase must be made prior to any additional purchases. -

## **CHANGE ORDERS**

In the event the amount exceeds the original purchase order, the excess amount must be approved. Requests for an increase must be made prior to any additional purchases. In the case of bids, or contracts awarded by Resolution, the amount may be increased only by the amount as provided by State Law as a Change Order, and authorized by resolution.

For ongoing projects which require immediate attention, the Administrator, Chief Finance Officer and Engineer may authorize an increase up to 10% of the original contract, not in excess of \$5,000. If the original contract was awarded by Resolution, then the increase must be confirmed by resolution as a Change Order.

## **EMERGENCY PURCHASES**

There are times when emergencies do arise which require the need for the immediate purchase of materials and supplies. Emergencies are situations where there exists the need to protect the safety, health, and welfare of the general public.

It is the responsibility of every department to utilize proper planning in ordering materials and supplies. Emergency buying can be very costly and time consuming. Requisitions should be prepared far enough in advance of need to minimize emergency situations. The key to avoiding emergency situations is utilization of proper planning procedures.

The following procedures are to be followed when making emergency purchases:

1. Emergency purchases of up to \$ 6,600 may be made with the Department Head's approval, who must immediately inform the Purchasing Agent. Within 24 hours of the emergency purchase, the Department Head must send a memo to the Chief Financial Officer, copying the Township Administrator and the Purchasing Agent, detailing the emergent nature of the purchase.

2. Emergency purchases over the above amount require the approval of the Business Administrator and Chief Financial Officer. If they cannot be reached, the Mayor or Asst. CFO must approve the purchase. If none of these officials or their designees can be reached, the Department Head must contact the Police Department's Shift Commander in order to record that an attempt has been made. If the purchase exceeds \$17,500.00, the Purchasing Agent MUST immediately notify the Chief Financial Officer.

In all of the above cases, the Department Head must, within 24 hours of the purchase, process a requisition through the normal procedures. . Once a purchase order is prepared, it will be sent to the vendor as a confirmation purchase order.

Under no circumstances are these procedures to be utilized to circumvent the normal purchasing system.

## **WALK THROUGH**

The processing of requisitions may take several days. Recognizing that there are times when materials and supplies are needed immediately, a walk through procedure has been developed.

Under this procedure, a requisition is literally "Walked Through" the approval process. After entering the Remote Requisition, contact the Purchasing Agent who will take immediate action to secure the Business Administrator's/CFO approval. A purchase order is promptly processed in order that the departments obtain the needed material and supplies or services.

## **PAYMENT PROCEDURE**

It is important for departments to understand the Township's payment procedure and its relationship to the encumbrance system. The key to the system is that funds MUST be encumbered prior to the issuance of a purchase order to a vendor. Only vouchers which have had funds encumbered will be paid.

The Township of Neptune pays bills twice-a-month, usually after 3PM on the Thursday following regular Township Committee meetings. Therefore, it is important that all paperwork needed for payment be submitted in a timely manner. It is the responsibility of each Department Head to see that vouchers are signed by the department's authorized employee or himself/herself, and submitted to the

Purchasing Agent with the vendor's invoice no later than **9:00 A.M. on the Wednesday** preceding a Township Committee Meeting to be included in the Bill List.

## **CANCELED ORDERS**

If, after an order is placed, it is decided that the materials and/or services are no longer needed, the Purchasing Agent should be notified as quickly as possible. The Purchasing Agent will notify the vendor to cancel the order. A delay in notifying the vendor may result in an unnecessary expense to the Township.

Adequate thought and planning given to purchases prior to making out requisitions will prevent the need to cancel orders.

## **PERSONAL EXPENSES**

Employees can submit requisitions for personal expenses **prior** to incurring expense. However, under no circumstances may an employee receiving reimbursement sign the Township certification on the voucher. As a courtesy, reimbursement checks will be available Tuesday after approval of the bill list and committee signatures.

## **CONFERENCES AND SEMINARS**

Expenses in connection with attendance at seminars and conferences will be handled as follows: **Prior to attendance** at a conference, meeting, convention, or seminar, a requisition should be processed with anticipated costs for all expenses that will be reimbursed.

All claims for reimbursement of expenses must be submitted on a Purchase Order. All receipts and documentation must be submitted with the voucher. Only the Township employees authorized to attend the seminar or conference can be reimbursed for expenses incurred.

Only conferences approved in accordance with the Neptune Township Travel Policy (Appendix G) will be eligible for reimbursement.

## **PETTY CASH**

Petty Cash is for EMERGENCIES ONLY, when authorized by the CFO, and not to exceed forty (\$40.00) dollars per instance.

## **SPECIFICATION WRITING**

Specification writing is a very important part of the purchasing system. A detailed description of the equipment or its purpose must be stated.

There are specifications available which should be reviewed when bid documents are prepared. When prepared, the specifications should be detailed enough to permit the bidder to offer exactly the right product. If the specifications are too ambiguous, the bidder will most likely offer the cheapest product. However, specifications should not be written so tightly so as to unnecessarily restrict vendors from bidding. As a guideline, specification should be written to promote competition without bias.

All specification writing for the Township shall be done by the Purchasing Agent based on departmental requests. Departments may be requested to submit sample specifications from time to time. It is the responsibility of each department to meet with the Purchasing Agent to insure that the quantity and quality of the items being ordered are the required materials and/or services for the work that is to be undertaken. Specifications may be submitted for departmental approval before going out for bid.

## **FIXED ASSET INVENTORY**

Any new equipment or material with a useful life of more than one year and acquisition cost of \$5,000 or more is considered a fixed asset. The data on all purchases under this criterion will be maintained in the Purchasing Office.

## **SURPLUS EQUIPMENT**

Surplus or outdated equipment must be disposed of in any of the following ways:

1. Transfer to other Township Department
2. Trade-in on new equipment. (still requires a Purchase Order)
3. Sale at public auction.
4. Sale as scrap.
5. Sold or donated to another government entity

When disposing any equipment, the equipment and its spare parts should be

disposed of at the same time. All surplus equipment and/or materials shall be reported to the Purchasing Agent.

If surplus equipment is sold, it will be administered through the Finance Dept. The sale of said equipment will be conducted in accordance with State Law. In general, anything lost must be reported to the Purchasing Agent upon discovery of it missing. If it was stolen a Police report should be filed.

## **PROCUREMENT CARDS**

The use of Procurement Cards (P-Cards) is permitted by N.J.A.C. 5:30-9A and authorized under N.J.S.A. 40A:5-16(c). The Township Committee shall adopt a Resolution instituting the policy for the P-Card system, award a contract to an authorized provider, and appoint a program manager who will be responsible for the oversight of the system. The program manager, in consultation with the Administrator and Chief Financial Officer shall administer the program, authorize which employees shall participate in the system and establish training.

P-cards can be utilized for tangible supplies or non-tangible items under the following conditions:

1. When payment to vendors is required in advance of the delivery of certain materials or services that cannot be obtained from any other source at comparable prices
2. Advance payment is required by the vendor
3. Comparable pricing is not otherwise obtainable for such goods or services to be available at the time and place required
4. The contracting agent has approved such item for purchase from a particular vendor
5. When ordering, billing and payment transactions for goods and services are made through a computerized electronic transaction (i.e. on the Internet)
6. Vendor requires immediate payment

7. Contracting unit's purchasing agent has approved such item for purchase from a particular vendor
8. When certification is not readily obtainable by the contracting unit

Transactions cannot exceed 15 percent of a contracting unit's bid threshold **unless** the local unit appoints an officer or employee possessing a Qualified Purchasing Agent (QPA) certification from the Division of Local Government Services in the capacity of program manager, in which case the individual transaction limit shall be subject solely to the amount (if any) established by the local unit's governing body in its policies and procedures.

P-Cards cannot be used for the purchase of items or services of a personal nature for employees, volunteers or officials. This includes travel, dining and room and board expenses.

*Please be aware that all purchases of goods and services using a P-Card must be done in compliance with the Local Public Contracts Law; use of a P-Card does not change or eliminate any provisions of that law. Current law prohibits schools from using procurement cards for any purpose*

### **Neptune Township Travel Policy**

#### **1) Purpose:**

This document ensures that employee travel is consistent with the business objectives of the Township of Neptune. It also ensures fair and equitable treatment of employees by defining procedures for authorized business travel and guidelines for expense reimbursement.

#### **2) Overview:**

A critical balance must be sought when requesting travel. This is the Township's need for cost effectiveness and the employee's need for quality services and support. Employee travel should be via the lowest cost alternative, consistent with good business practices. Neither luxury, nor sub-standard modes of transportation and accommodations should be used.

Employee travel and the expenses associated with it, will be authorized only in circumstances which are clearly consistent with the needs of the Township and the job description and responsibilities of the employee. It will be the responsibility of each department head to ensure that all employee travel meets this objective and that reimbursement made only for actual, reasonable business expenses in connection with authorized travel as defined in this document. In order to maintain control over expenditures, any expense submitted which does not comply with the guidelines of this procedure will not be reimbursed, unless accompanied by a valid exception by the Township Administrator. Expense reports must be submitted in a timely manner.

Limitations on expenses are as described in Negotiated Labor Agreements and the Township Personnel Ordinance. If no limitation is described in the Negotiated Labor Agreements of the Personnel Ordinance, the limits shall be set by this policy or by resolution of the governing body.

All travel must be requested using the official Township "**Travel Authorization Form**" (hereafter referred to as a **TAF**.), signed by the appropriate department head. Subsequent to approval; travel arrangements, including airfare, rental car, lodging and planning of meetings can be coordinated through the appropriate departmental support staff. - B. Determine if travel is really necessary to achieve goal.
- C. Approve expenses in accordance with policy.

#### **Employee's Responsibility:**

- A. Notify support staff or designated travel agent as early as possible of necessary travel arrangements. If you notify the support staff or travel agent of your travel plans thirty (30) days or more in advance, your trip will, in most cases cost considerably less.
- B. If travel is requested less than thirty (30) days prior to departure, special permission to travel must be obtained from the Township Administrator.
- C. Incur only expenses that are consistent with Township needs, and exercise care in determining appropriate expenditures
- D. When available, use discounted travel arrangements offered by conference sponsors.
- E. Submit expense reports as outlined in the expense section on this policy, on a timely basis (within 30 days).

### **4) Travel Authorization & Approval:**

Upon determination that a trip is necessary, a "Travel Authorization Form" must be filled out and signed by department head. This form should then be submitted to the Township Administrator for approval. Once approved, the TAF should be submitted to the CFO for final approval. Upon receiving the TAF back, employee must enter a Requisitions for all estimated travel related costs.

**B.** Use of "Non-Refundable" airfares is required. These fares are usually considerably less expensive than refundable un-restricted fares. In most cases, if the travel must change or the trip canceled all together, the funds can be used as a credit toward future travel, less a service charge imposed by the airline.

Business class travel is not permitted.

**C.** Employees choosing to use personal modes of travel between cities serviced by regularly scheduled airlines, will be reimbursed based upon least expensive airfare or actual expenses, whichever is less.
